

The First Time I Loved Forever

Sung by Lisa Angele

(from A Distant Shore)

The first time I loved forever,
Was when you whispered my name
And I knew at once you loved me
For the me of who I am

The first time I loved forever
I cast all else aside
And I bid my heart to follow
Be there no more need to hide

And if wishes and dreams are merely for children
And if love's a tale for fools
I'll live the dream with you

For all my life and forever
There's a truth I will always know
When my world divides and shatters
Your love is where I'll go
